Ugears Mechanical
Box and Business Card Holder

Add a touch of clever whimsy to your home or office with Ugears Mechanical Box Business Card Holder (includes one).

This pretty little box, or “etui” is a delightful decorative way to hold business cards or store some of your cherished knick-knacks. Mechanical gears operate. Very popular in Europe, just now hitting the USA. Made in the Ukraine and partially financed with Kickstarter campaigns.

Press the side lever to gracefully raise and open the box to reveal its content. The kit includes two interchangeable panels – one for easily removing cards and the other for keeping small items from spilling out. Size: 7.7*3.5*7.4in.
